

Carlson Grade Drill

Realtime 3D GPS for navigation

Applications:

- Blasting
- Exploration

Benefits and Features on Machine:

- Drill to DTM or elevation
- Easy to use
- Navigate to coordinate file, or field market point
- Unlimited tagging of strata
- Record actual drill depth
- Project hole depth
- Warning / Watch zones by polygon or DTM
- Data Logging or Realtime data transmission

Benefits and Features in Office: (subject to Productivity Tools and Fleet Manager)

- Create drill patterns from multiple sources
- Near realtime reporting
- Individual machine reports for fleets / users / activities
- Create DTM from drill data
- Extract strata information
- Report actual drill hole to design
- Link to Carlson blasting
- Wireless project distribution
- Realtime monitoring
- Near realtime volumes
